Cloudy	Cloudy	Sunny intervals	Sunny intervals	Fog	Heavy rain showers (night)
Precipitation probability					
60%	20%	20%	20%	40%	40%

Forecast for Saturday 01 Jan 2022

Weather: Some light and patchy rain overnight and a few heavier bursts around dawn. Although still dull with some light rain at day break, New Year's day will brighten up with a few sunny spells by late morning, the best of the brightness and cloud breaks will be around northern fells. A few showers may develop later in the afternoon or during the evening. Feeling quite mild but the southerly gales will likely cancel this out.

Chance of cloud free mountain/hill tops above 800m: 60%, scattered low cloud associated with mild air and rainfall, mainly over Southern fells.

Visibility: Visibility will be poor at daybreak as rain clears the area but soon becoming good. Scattered low cloud will come and go during the day with bases around 500m, the northern Fells will see less low cloud and good views will generally be available here. Visibility may fall poor again in the early evening as some showers develop.

Freezing Level*	2300m	2000m	1600m	1600m	1700m	1600m	1500m

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Quite mild for January but strong winds will add a chill factor when out walking and some strong buffeting is likely on the high fells in the morning. Gales likely throughout the day.

Forecast for Sunday 02 Jan 2022

Weather: Partly cloudy but some sunshine is likely to pop through the cloud at times. A few outbreaks of rain or showers are likely in the strong southwesterly winds and remaining very mild. Overnight temperatures may be warmer than day time temperatures.

Maximum wind: Southwesterly 20-25mph with gusts 35mph.

Chance of cloud free mountain/hill tops above 800m: 70%, some patches of lower cloud are likely at times in the west.

Visibility: Generally good visibility but patches of cloud down to 500m may shroud the fell tops at times, especially the western hills.

Temperature: **Valleys:** Plus 11 Celsius.
At 800m: Plus 4 Celsius
Freezing level: Above the summits.
